Touch...The Sky

Apolo

Simplicity of lines

The Apolo model was developed for indoors use to work as stand up kiosk.

This model can be manufactured in stainless steel or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of the all structure.

This Galla model is normally equipped with a tactile monitor and can be delivered with a anti vandalism keyboard with trackball, card reader, webcam, coin acceptor, tickets printer, handset phone and other peripherals. This model can be equipped with a anti vandalic monitor.

The area where the computer is installed and possible peripherals (card readers, coin acceptors, etc.), is protected with access through a security lock and includes three power plugs.

The Apolo Model is normally equipped with a 17" SXGA touchscreen display (SAW) (19" to 24" are other possible sizes).

On the side of the monitor are two speakers and the kiosk has 2 independent systems of ventilation, one for the monitor and other for the PC.

The Apolo Model is normally equipped with a Atom CPU with a 160 GB hard drive, 1 Gb Ram Memory, a 128Mb graphic card and a 10/100 mb ethernet, Windows 7 Starter.
